#### Description

Hi,

I get a TP-Link TL-WR841N v8 and flash it with latest qMp Kalimotxo, no configuration kept.

I SSH there only to see that:

```
root@qMp-8a29:~# touch pau_is_paco
touch: pau_is_paco: No space left on device
```

Oops!

Should be fixed in last kalimotxo.

Great! Thanks, Pau!
