Neither TP-Link_TL-WDR3500-v1

#2 - 10/25/2017 05:59 PM - Roger Pueyo Centelles

- Status changed from Nou to Tancat

TP-Link TL-WA7510N is one of these 4/32 devices for which images are too big. So sad.

TP-Link TL-WDR3500-v1 images are being generated (testing, kalimotxo), so probably it was just a compilation error.
