

qMp (Quick Mesh Project) - Packages - Suport #441

root password overwritten on first boot (or after flashing)

01/16/2018 03:18 PM - Roger Pueyo Centelles

Status:	Tancat	Start date:	01/16/2018
Priority:	Normal	Due date:	
Assignee:	Roger Pueyo Centelles	% Done:	100%
Category:	System	Estimated time:	1.00 hour
Target version:	4.1 "Leverage"	Spent time:	1.20 hour
Description			
See file http://dev.qmp.cat/projects/qmp/repository/changes/packages/qmp-system/files/etc/uci-defaults/qmp_set_default_password?rev=master . The password change should only be performed on first boot after flashing, except if upgrading from a previous qMp system.
