A lot of changes were made to luci-app-bmx6, the package that provides the BMX6 Graph page. Because of a couple of bugs in it, the Graph page stopped working:

- <https://github.com/openwrt-routing/packages/issues/432>
- <https://github.com/openwrt-routing/packages/issues/434>

#5 - 02/06/2019 07:18 PM - Roger Pueyo Centelles

- Status changed from Nou to En progrès

- Target version changed from 4.1 "Macondo" to v5.0.0

- % Done changed from 20 to 90

The bug has been fixed upstream, in BMX6. It probably won't be fixed in OpenWrt 18.06.2 nor 18.06.3, but it will eventually reach qMp.
